

OncoNETWORKING

Capitalize on networking within the entire oncology ecosystem

OncoNETWORKING is for any interested player working in the fight against cancer and aims to accelerate the growth of projects and facilitate access to partners, scientists, manufacturers, investors, employees, users, etc.

1) Hub Start-ups

Access to a database of French oncology start-ups / biotechs

The [OncoSTART compagnies database](#) lists all French startups / biotechs developing innovative products / solutions in oncology. It allows Internet users to more easily identify the players in the ecosystem present on French territory.

We suggest that your business be listed in this business hub and appear on our website.

The Commercial Code, authorizing us to take only the information appearing in the Trade and Companies Register (RCS) either address, sector of activity and workforce, you can complete the questionnaire below (2 minutes max), you, or any contact person within your company. The interest is to maximize the visibility of your start-up / biotech with our partners.

>> Fill in the survey <<

For who ?

o Are you a French company (start-up / biotech) developing innovative products / solutions in oncology?

o Are you in the fields of diagnostic / therapeutic innovation? Technological and digital?

Organizational and behavioral?

Then you have your place in the OncoSTART Hub!

Why register?

OncoSTART aims to support entrepreneurship and support companies involved in the fight against cancer. Among our launch actions, we propose to carry out a map of French entrepreneurship in the field. This census is therefore the opportunity for your company to stand out in this ecosystem!

What cost?

ZERO !! Listing your business on our platform is free and without obligation.

How to appear?

It's very simple, just fill out the form above, and we'll add you to the database, if you meet the criteria.

2) Events

Organization of dedicated partnering events

- **MEET2WIN 2021**

MATWIN organized on May 6 and 7, 2021 the 6th edition of its European partnering convention MEET2WIN. This event took place in digital format.

- 330 European participants
- 30 international speakers
- more than 20 presentations of innovative projects
- over 1,600 face-to-face online meetings

forums dedicated to the partnership strategy of large pharmaceutical and biotech groups

For any information, go to the event website: www.meet2win.fr

- **R2B**

Since 2008, the Research2Business Oncology Meeting (R2B) has been the CLARA event which aims to catalyze new collaborations between academics and industry in order to increase technology transfer in oncology. Highlight of the CLARA Forum, the R2B is the meeting of players in the oncology value chain: researchers, clinicians, start-ups, biotechs, pharmaceutical industry and service providers for R&D, but also SATTs and poles of innovation.

More information on the website : <https://forum.canceropole-clara.com/r2b-oncologymeeting/>

- **ICCS 2021**

OncoSTART through MATWIN was co-organizer of the 10th International Cancer Cluster Showcase. 14 companies selected by the 8 international clusters thus had the opportunity to pitch in front of more than 200 participants willing to maximize their opportunities for collaboration in oncology

For any information, connect to the event website:
